MOUD -AFTERCARE	Potomac Healthcare Foundation (Mountain Manor)	Carroll County		<p>While the impetus for the establishment of MAT in the CCDC was HB116, the Sheriff and staff recognize the critical and lifesaving benefits of offering both continuing OUD treatment and initiating such treatment. As noted in The Impact of The Opioid Crisis On U.S State Prison System "the risk of death from opioid overdose is particularly high in the immediate period following release from prison" (1). The same article also details the long-term benefits, including a reduction in recidivism for those provide with MAT while incarcerated. With 1/3 of the current population in the CCDC receiving MAT services, it is clear that both the need is high, and this program can save lives.</p> <p>Goals include:</p> <ol style="list-style-type: none"> 1. Qualified medical providers conduct assessment of substance use status of each incarcerated individual at intake and determine appropriate treatment plan 2. Qualified medical provider administers medications to incarcerated individuals for the treatment of OUD to include all FDA- approved medications 3. Behavioral health providers implement needed mental health services including access to peer recovery specialists 4. Continue safe operations within the CCDC while offering the services associated with MAT 5. Plan for re-entry prior to the release of an incarcerated individual to include access to medication, peer recovery specialists, behavioral health therapies and enrollment in health insurance 	Local Direct Funding	\$ 653,733.88	7/1/2023	6/30/2028	\$ -	\$ -	\$120,696.91	\$143,573.33	\$ 130,546.00	\$ 135,768.00	\$ 141,198.00	\$ -
